

FAMILY SURVEY RESPONSE

Summer 1 2021

Shortly after returning from our last lockdown, I shared a family survey to gauge confidence and feedback on how children were settling in. Here is a summary of your responses. 76% of our families responded.

- 100% happy with Covid 19 Risk Assessment.

This document is now onto version 10! It has been tweaked with each government announcement. We will leave the risk assessment in place until the new school year. I have recently conducted a staff survey and 100% of staff are happy with the document too.

- 99% happy that their children have adapted to safety procedures.

There has been a lot of worrying by the grown ups during this pandemic but the children have been incredibly resilient and flexible as guidance has changed and restrictions have needed to be adapted.

- 95% children have settled back into school routines.

Staff agree.

- 99% children are happy & settled with their friends.

- 75% feel that remote learning worked well in their home.

We were able to provide all families that asked for hardware with IPADs and a full timetable of remote learning daily was very well received. We do appreciate that the older the children the more independent they were. The great news is that as a result of the government computers for schools, we have many more devices to support our learning in class.

- 78% feel that their child progressed well.

We are in the process of assessing and providing support for those children in a personalised way; some have had a lot of support at home and lost a little independence, some picked and chose only the activities they liked the look of but many thrived and did so well!

- 75% have no concerns about their child struggling with their learning. Of the 25% who did have concerns, many qualified this response by saying that they didn't know where their child was academically.

We will schedule a remote open evening with you this half term to share news of wellbeing, confidences, strengths and areas to develop. Before the end of the school year you will receive a report but in the meantime, if you have any questions or concerns please don't wait do get in touch.

When asked about 'catch up' and proposed possibilities of extending the school day or reducing the school holidays, the vast majority were very against it. There were many kind comments too.

Thank you for taking the time to share your responses.

Ms Walker

All of the children are in the same boat. Children need routine but also to relax and have fun.

I trust the staff to continue the great education offer.

Thank you, staff have done a smashing job. I take my hat off to you!
